

Grandi Quality

PRECISION METAL PROCESSING

Company Profile

Profile

Grandi Manufacturing is a leader in precision metal manufacturing, offering a wide range of engineering services across various sectors. With a rich history spanning over five decades, our commitment to quality, innovation, and customer satisfaction has made us a trusted partner for businesses across South Africa and beyond.

Our journey began as a small family business, and today, under the directorship of Marco Grandi, we continue to uphold the values of integrity, quality, and professionalism that have been the foundation of our success. Marco's expertise in design and manufacturing, combined with the hands-on approach of his partner, Brendan Ryneveld, ensures that every project is executed to the highest standard.

Located in Paarden Eiland, Cape Town, our facility spans 2,500 square meters and is equipped with cutting-edge machinery that enables us to deliver a broad scope of in-house production capabilities. We pride ourselves on our ongoing investment in our premises, ensuring that we maintain the highest levels of efficiency, organisation, and capacity.

Our Core Values:

- **Quality:** We strive for excellence in every aspect of our work, ensuring that our products meet the highest standards of quality.
- **Innovation:** We continuously invest in the latest technology and techniques to stay ahead in the industry.
- **Integrity:** We conduct our business with honesty and transparency, building lasting relationships with our clients.

Why choose Grandi Manufacturing?

There is no metal manufacturing project Grandi Manufacturing cannot do.

Grandi Manufacturing is one of the very few companies globally that can manage every aspect of a metal manufacturing project—from start to finish. With an extensive range of specialized machinery and expert staff, we are uniquely positioned to tackle the most complex and large-scale metal manufacturing challenges.

For over 50 years, Grandi Manufacturing has been at the forefront of precision metal processing and manufacturing. Founded in the early 1970s, we have grown from a small family-run business into one of Africa's most capable and versatile metal manufacturing companies. Our deep-rooted expertise, honed over decades, positions us as a leader in the industry, with an unmatched ability to deliver high-quality, complex metalwork projects.

Unparalleled expertise

With a legacy spanning more than five decades, Grandi Manufacturing brings a wealth of knowledge and experience to every project we undertake. Our team of skilled professionals is well-versed in the intricacies of metal processing, from design and engineering to final production. This extensive experience allows us to approach each project with a level of precision and care that is unmatched in the industry.

State-of-the-art facility

Grandi Manufacturing operates out of a purpose-built, four-story facility in Paarden Eiland, Cape Town. This expansive space houses a comprehensive array of specialized machinery, making us a true one-stop shop for all metal manufacturing needs. Our facility is uniquely equipped to handle every aspect of metal manufacturing, from start to finish, ensuring that we can take on even the most challenging and bespoke projects with confidence.

Comprehensive capabilities

Our facility is equipped with the latest technology and machinery, allowing us to offer a wide range of services, including:

- Tool & Die Engineering
- Sheet Metal Fabrication
- Deep Drawing on Double Action Presses
- CNC Milling & Turning
- Press Production Work
- Powder Coating
- Welding and Fabrication
- Non-Destructive Testing
- Spectrographic Analysis

From small, intricate components to large-scale structural projects, Grandi Manufacturing has the capability to handle it all. Our machinery can process metals of various sizes and complexities, allowing us to work on everything from precision parts to large, custom-built structures.

A unique offering in Africa

What sets Grandi Manufacturing apart is our ability to manage the entire metal manufacturing process in-house. Few companies in Africa can match our breadth of capabilities and our commitment to delivering the highest quality products. Whether you need assistance with design and engineering or require full-scale production and finishing, Grandi Manufacturing has the expertise and resources to meet your needs.

Why choose Grandi Manufacturing?

- Experience: Over 50 years of proven expertise in precision metal processing and manufacturing.
- Comprehensive services: A full suite of metal manufacturing capabilities under one roof.
- Advanced technology: State-of-the-art machinery that ensures precision and quality in every project.
- Customer focus: A dedicated team that works closely with clients to deliver tailor-made solutions.

At Grandi Manufacturing, we pride ourselves on being a leader in the metal manufacturing industry, not just in South Africa, but across the continent. Our unique combination of experience, technology, and comprehensive capabilities makes us the go-to partner for all your metal processing and manufacturing needs. There is no project too big or too complex for Grandi Manufacturing, and we are committed to delivering excellence in every job we undertake.

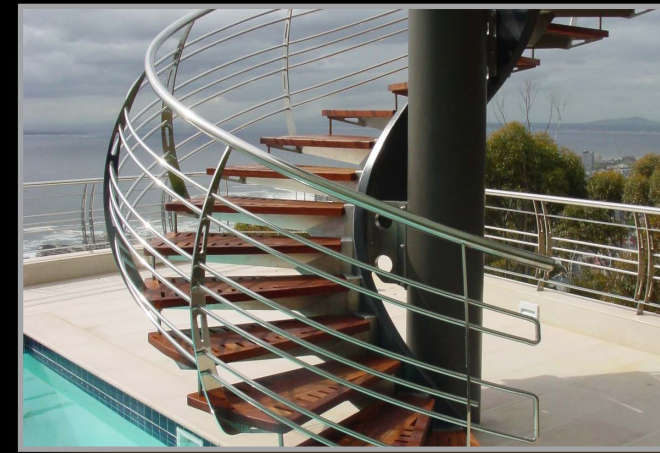

Our Team

Grandi Manufacturing is more than just a business; it's a family. Owned and operated by Marco Grandi, our company has been a staple in the metal manufacturing industry for over 50 years. Marco, alongside his partner Brendan Ryneveld, leads the team with a hands-on approach, ensuring that every project is executed with the highest level of precision and care.

Our team of 50 skilled operators and machinists is the backbone of our success. With a focus on empowerment and personal development, we provide ongoing training and skill development to ensure that our team remains at the forefront of the industry.

General Manufacturing

Our service offering

At Grandi Manufacturing, we pride ourselves on offering a comprehensive range of services that take your project from concept to completion. Our end-to-end approach ensures that every detail is meticulously planned, expertly executed, and perfectly aligned with your vision. Here's a closer look at the services we offer:

Conceptualisation

Our process begins with conceptualization, where we collaborate closely with you to understand your vision and project requirements. Whether you have a clear idea or need assistance in developing one, our team is equipped to help you shape the initial concept. We've worked on a variety of projects, from large-scale architectural installations to intricate art pieces, providing the foundation for innovative and functional designs.

Product Design

Once the concept is established, our product design phase transforms your ideas into workable designs. Using cutting-edge software and our extensive industry knowledge, we refine your concepts into detailed plans that meet both aesthetic and practical needs. For example, our design team recently worked on a complex balustrade system for a high-end residential project, ensuring it was both stylish and compliant with all safety regulations.

Technical Drawing

Accurate technical drawings are crucial to the success of any manufacturing project. Our skilled draughtsmen produce precise technical drawings that serve as the blueprint for production. These drawings detail every aspect of the project, from dimensions and materials to assembly instructions. A recent example includes the detailed drawings for a custom stainless steel filter for a marine application, where precision was key to the project's success.

Manufacturing

Our state-of-the-art manufacturing facilities are equipped to handle projects of all sizes and complexities. With over 50 years of experience, we are adept at working with a wide range of materials, including specialized metals like stainless steel 316. We combine traditional craftsmanship with advanced machinery to deliver high-quality products, such as the large-scale seawater filter we recently fabricated for an industrial client.

Installation

Our services extend beyond the workshop, with a dedicated installation team ensuring that your project is flawlessly executed on-site. We understand that the installation phase is just as critical as the manufacturing process, and we provide full support to ensure everything fits and functions as designed. An example of our installation expertise is the successful fitting of custom metalwork in a luxury hotel, where precision and attention to detail were paramount.
